The Victorian Era (1837?1901): The Rise of Elaborate Hairstyles

The Victorian era is renowned for its emphasis on modesty, femininity, and social decorum, and these values were vividly expressed through hair fashion. Hairstyles during this period evolved from modest, simple arrangements to increasingly elaborate and ornate creations, often involving intricate techniques, accessories, and volume.

Early Victorian (1840s?1850s): Simplicity Meets Modesty

In the early part of this era, hairstyles were characterized by their practicality and modesty. Women

often styled their hair in simple buns or braids, with the hair parted in the middle or slightly to the side. The emphasis was on neatness and restraint, aligning with the era's moral codes.

Key Features:

- Parted center or side: Clean, defined partings.
- Buns and chignons: Hair gathered at the nape or crown, often secured with ribbons or simple pins.
- Minimal ornamentation: Small combs, pins, or ribbons to keep the style tidy.

While these styles were practical, they also became the foundation for more elaborate arrangements as the decade progressed.

Mid Victorian (1860s-1870s): The Emergence of Volume and Complexity

The mid-19th century marked a shift toward more voluminous and decorative hairstyles. The advent of new hairstyling tools and techniques, along with the influence of royalty and aristocracy, propelled this evolution.

Innovations and Trends:

- Curls and Ringlets: Women styled their hair into tight curls or ringlets, often framing the face or cascading down the shoulders.

- Use of Padding and Supports: To achieve height and volume, women used padded cushions, wire frames, and tissue paper to lift the hair upward.
- Decorative Accessories: Ribbons, flowers, feathers, and jeweled pins became popular adornments, emphasizing wealth and social status.

Sample Style: The "Grecian-Inspired" Updo

- Hair was parted in the middle or slightly to the side.
- Curls were arranged in soft waves, pinned at the crown.
- The back was styled into a chignon or a braided bun, sometimes decorated with flowers or ribbons.

Late Victorian (1880s-1900): The Height of Ornamental Hairdressing

By the late Victorian period, hairstyles reached extraordinary levels of complexity and ornamentation. The focus was on creating a sense of grandeur and elegance, often involving multiple techniques and a variety of accessories.

Characteristics:

- Towering Hairdos: Hair was styled into elaborate, towering structures—sometimes called pomps—using extensive padding, wire frames, and padding to create height.
- Bouffant and Pompadour Styles: The hair was teased and piled high, sometimes with a bump at the crown.
- Use of Frizz and Curls: Achieved through curling irons, pomades, and curling tongs, creating soft, textured curls.
