Common Review Questions and Their Answers

Below are typical questions encountered in food and agriculture concept reviews, along with comprehensive answers.

What is the difference between subsistence and commercial agriculture?

Answer:

Subsistence agriculture is primarily focused on growing enough food to meet the needs of the farmer's family, with little surplus for sale. It often involves traditional farming methods, small landholdings, and low input use.

Features of Subsistence Agriculture:

- Small-scale operations
- Mainly manual labor
- Focused on local consumption

In contrast, commercial agriculture aims to produce crops and livestock for sale in markets, often on large farms or plantations. It emphasizes maximizing yield and profit, utilizing advanced technology, fertilizers, and machinery.

Features of Commercial Agriculture:

- Large-scale production
- Intensive use of inputs and technology
- Focus on export or market sale
- Often involves monoculture practices

Describe sustainable agriculture and list its key practices.

Answer:

Sustainable agriculture involves farming methods that meet current food needs without compromising the ability of future generations to meet theirs. It emphasizes environmental health, economic profitability, and social equity.

Key Practices of Sustainable Agriculture:

- Crop Rotation: Alternating crops to improve soil fertility and reduce pests.
- Water Conservation: Efficient irrigation techniques like drip irrigation.
- Integrated Pest Management (IPM): Combining biological, cultural, and chemical tools to manage pests sustainably.

- Use of Organic Fertilizers: Such as compost and manure, to enrich the soil naturally.
- Agroforestry: Integrating trees with crops or livestock for ecological benefits.
- Reduced Tillage: Minimizing soil disturbance to prevent erosion.

How does climate change affect agriculture?

Answer:

Climate change impacts agriculture through various mechanisms:

- Altered Rainfall Patterns: Leading to droughts or floods that reduce crop yields.
